To: **Dr. José I. Navarro**
Coordinator of the ANGOSAP Project
University of Cádiz, Spain

Re: Invitation to join the Euro-African Psychology Network – ANGOSAP Project

Reference to the above subject, I am hereby making an official reply to your letter which is inviting the Zanzibar University and myself to join the Euro African Psychology Network. Since it is an initiative dedicated to strengthening higher education, enhancing training standards, and promoting scientific research in the field of psychology across regions, needless to say that Zanzibar University has got many challenges which I believe can be solved through this network since it ensures a solid foundation for academic exchange, joint research projects, and professional development mobility between our continents.

Hence, I am hereby replying this letter to indicate my personal interest of joining this initiative while continue to convince my University to also join, in order to build a lasting academic partnership.

Thank you very much Dr Navaro for having fulfilled your promise as we had discussed during our short period of conversation between us while you were in Zanzibar. Hope we still stand a chance of working together with you all, and so I'm eagerly waiting to hear from you the soonest.

Sincerely,

Dr. Hafsa Mwita* (*Senior Lecturer, Counselling Psychology)
Faculty of Health & Allied Sciences, Zanzibar University,
P.O. Box 2440, Zanzibar, Tanzania.
